BCPY(3)

REVISION HISTORY

NUMBER	DATE	DESCRIPTION	NAME

Contents

Chapter 1

SYNOPSIS

#include <ubf.h>

int Bcpy (UBFH *p_ub_dst*, UBFH *p_ub_src*);

Link with *-lubf -lnstd -lm -lpthread*

Chapter 2

DESCRIPTION

This function copies content from *p_ub_src* to *p_ub_dst* buffer.

Chapter 3

RETURN VALUE

On success, **Bcpy()** return zero; on error, -1 is returned, with **Berror** set to indicate the error.

Chapter 4

ERRORS

Note that **Bstrerror**() returns generic error message plus custom message with debug info from last function call.

BNOTFLD Source or dest buffer not fielded, not correctly allocated or corrupted.

BNOSPACE No space left in target buffer.

Chapter 5

EXAMPLE

See **ubftest/test_genbuf.c** for sample code.

Chapter 6
