

Enduro/X - Feature #416

exbench

06/03/2019 11:23 AM - Madars

Status: Closed	Start date: 06/03/2019
Priority: Normal	Due date:
Assignee:	% Done: 100%
Category:	Estimated time: 0.00 hour
Target version:	
Description Standard Enduro/X benchmark utility shall be developed, that would accept the input/output buffers in JSON format. - The request modes could be tpcall/tpacall. - number of requests to process (#) Multi threaded option (e) use transaction mode or not (-T)	

History

#1 - 06/03/2019 11:28 AM - Madars

We shall support some incremental buffer sizing. And some result plotting with help of R script. The exbench could work also as server if configured so (sees server specific environment variables)
