Category:		**Estimated time:**	0.00 hour
Target version:			

Description

In case if ndrxd is killed but all the other components of the system is still up and running,

the ndrxd shall enter in the recovery mode for startup request. Thus includes:

- review of xadmin's "ndrxd is not running - system cleanup" procedure:
If pid file exists and ndrxd is not running, then check following: if shared memory exists, the run "ndrxd -r" in recovery mode.
