

Enduro/X Core - Feature #581

Excessive logging in tpbridge during normal operation

08/12/2020 04:39 PM - Haralds

Status: Closed	Start date: 08/12/2020
Priority: Normal (Code 4)	Due date:
Assignee:	% Done: 100%
Category:	Estimated time: 0.00 hour
Target version:	

Description

Please increase logging level for "Got service from node: %d - [%s] count: [%d], mode: [%c]". from log_error to log_info

http://www.silodev.com/lxr/source/ndrxd/cmd_bridge.c#0161

```
0158 /* So we get the full list we should iter over */
0159 for (i=0; i<refresh->count; i++)
0160 {
0161     NDRX_LOG(log_error, "Got service from node: %d - [%s] count: [%d], mode: [%c]",
0162             refresh->call.caller_nodeid,
0163             refresh->svcs[i].svc_nm,
0164             refresh->svcs[i].count,
0165             refresh->svcs[i].mode);
0166     ref_ent = &refresh->svcs[i];
0167 }
```

History

#1 - 08/12/2020 04:55 PM - Haralds

Additionally please change log header pid part format to %05d.
Otherwise there are spaces, which is no handy for logfile parsing.
