

Enduro/X Core - Support #590

on IBM AIX 7.2 thread pool does not start

09/21/2020 11:10 PM - Madars

Status: Closed	Start date: 09/21/2020
Priority: Normal (Code 4)	Due date:
Assignee:	% Done: 100%

Target version:	
Description Seems like starting for AIX 7.2 ulimit -s thread limit (resource limit) is applied process wide. Any thread starting and setting the same setting on thread bases, cases pthread_create() to fail. Solution: - Add corresponding log messages, when this happen. - Recommend to use NDRX_THREADSTACKSIZE to something like 8192.
