| Description ndrxd uses invalid counter for delayed respawn checking. Currently respawn usually happens immediately after process crashed (basically ignores restart delay settings). | | | |

History

#1 - 09/10/2023 08:04 AM - Madars

Release notes

Fixed ndrxd, so that respawn (process start after crash) happens according to the setting meaning.

Available from Enduro/X release 8.0.10+.

#2 - 09/10/2023 08:04 AM - Madars

- Status changed from New to Resolved
- % Done changed from 0 to 100
